

Résumé

Pablo Cesar Canamasas

PERSONAL DETAILS

Age: 46

Date of Birth: 31/01/72

Place of Birth: San Juan, Argentina

Passport nº: PE0413630 (Australia) & AAF005416 (Argentina)

Australian driver licence nº: 085790173

Address: Calle 450, número 2830, City Bell (1896), Buenos Aires, Argentina

Mobile phone number: +549 221 5966499

Home phone: +54 221 4802933

E-mail address: pcanamasas@yahoo.com

pablocanamasas@gmail.com

COMPETENCIES AND EXPERIENCE

- Agronomical engineer specialized in olive oil production and oil quality. Specialization and training undertaken in the most important areas of the world for Olive oil production: Spain and Italy.
- Technical advisor in the olive oil processing area around Australia and overseas.
- Main investigator in research studies related to olive oil processing funded by Rural Industries Research & Development Corporation (RIRDC) and Horticulture Australia Limited (HAL).
- Extensive experience in olive oil tasting. Regularly invited for judging in EVOO national competitions in Australia.
- Experience in performing modern olive oil extraction machinery, as well as making decisions in all matters related to oil production, oil quality, oil blending and post-season management.
- Involvement in the design & development of olive oil processing facilities and in the continual improvement of their industrial efficiencies.
- Experience in technical management of olive orchards, including areas such as pruning, fertigation, irrigation and weed and disease control.
- Technical experience in analyzing and interpreting irrigation and Climatic data in order to make decisions in scheduling Irrigation programmes in olive groves.

EMPLOYMENT HISTORY

2014 – Present **Independent consultant**

2005 – 2014 **Boundary Bend Olives, Victoria, Australia.**
A 5400 hectare plantation of Olive trees for oil production

Position: Oil Production Technical Manager

Supervisor and Coordinator of the operations of Boort Estate, and Boundary Bend Estate olive oil processing plants. Coordination of all quality control operations of these processing plants and its laboratories. Technical advisor in the olive oil production area to Australian and foreign companies.

2002 – 2005 **Olivecorp Pty Ltd, Boort, Victoria, Australia.**
(A subsidiary of Timbercorp Limited).
A 2777 hectares plantation of Olive trees for oil production.

Position: Processing Plant Manager

Technical performer of the Olivecorp's olive oil processing machinery at Boort. Decision maker in the oil production area, as well as in all matters related to oil quality and post-season oil management. Involved in the development of the Processing Facility at Boort (Boort Estate Pty Ltd) as well as in all technical decisions in the farm that affect the oil extraction performance and the oil quality, such as: Fertigation, pre-season Irrigation, disease control, etc.

1997 – 2002 **Agropecuaria Arphi S.A. (Capayán, Catamarca, Argentina)**
A 140 hectares plantation of olive trees for oil production and table olives.

Agropecuaria Pha'ka S.A. (Capayán, Catamarca, Argentina)
A 240 hectares plantation of olive trees for oil production and table olives.

Technical consultant and manager of both companies. Performer of projects in their productive aspect, decision taker and person in charge of budgeting the annual investments.

1996 – 1997

Plantaciones Jojoba S.A. (Catinzaco, Chilecito, La Rioja, Argentina)

A commercial nursery selling fruit trees.

Technical consultant in the tree nursery area. Performed a range of duties including production, growing and development of Jojoba and Olive plants. Production of plants of olive trees, walnut trees, fruit with stone trees, grapevine, and pistachio nut trees.

1996

Chair of Fruit Production, School of Agrarian and Forest Sciences, National University of La Plata, Buenos Aires, Argentina.

Granted a fellowship assigned to research tasks in the Vegetal Production Department. Development of the Project “New clonal graft-holders for peach tree. Its propagation and grafting.” (*“Nuevos portainjertos clonales para duraznero: su propagación e injertación”*).

ACADEMIC BACKGROUND AND FURTHER STUDIES

UNIVERSITY STUDIES

Agronomical Engineer. School of Agrarian and Forest Sciences, National University of La Plata, Buenos Aires, Argentina. Graduation date: 1/10/96. Grade point average without deferment: 7.74. Received the “Dr. Joaquín V. González” award to the best average marks from the U.N.L.P (National University of La Plata).

SECONDARY SCHOOL LEVEL

High School Certificate. Instituto San Francisco de Asís of Villa Elisa, Buenos Aires, Argentina.

LANGUAGES

Spanish and English. Able to speak and read Italian, and able to read French.

GRADUATE COURSES

Superior Course of Specialization in Olive Oil Production and Table Olives (“Curso Superior de Especialización de Elaiotécnica y Aceituna de Mesa”). International course promoted by the Junta de Andalucía. Center of Research and Agrarian Training Venta El Llano, Mengíbar, Jaén, Spain. 150 teaching hours. 2001

Ecological Management of the Soils (“Manejo Ecológico de los Suelos”). Belonging to the Master Course in Sustainable Agriculture. National University of Catamarca, Argentina. Credits: 3. 1998

Soil Fertility (“Fertilidad del Suelo”). Belonging to the Master Course in Sustainable Agriculture. National University of Catamarca, Argentina. Credits: 3. 1998

RESEARCH STUDIES

Extraction of olive oil assisted by high frequency ultrasound standing waves. Collaborator. Research project funded by CSIRO Australia. Main researcher: Pablo Juliano. Australia. 2016

Evaluation of second extraction of olive oil in Australia (PRJ-006170). Main researcher. Research project funded by Rural Industries Research & Development Corporation (RIRDC). Australia. RIRDC Publication No. 12/109. 2011.

Evaluation of processing aids for olive oil extraction and quality improvement (PRJ-003422). Main researcher. Research project funded by Rural Industries Research & Development Corporation (RIRDC). Australia. RIRDC Publication No. 11/091. 2008.

Technological and biological factors affecting sterols in Australian olive oils (PRJ-000385). Collaborator. Research project funded by Rural Industries Research & Development Corporation (RIRDC). Australia. 2007.

Enhancing olive oil processing efficiency and competitiveness using emerging technology (OL08003). Collaborator. Research project funded by Horticulture Australia Limited (HAL). Australia. 2008.

Conduction of fruit with stone trees under hail-proof netting. Contribution to the study of the hail-proof protection in relation to the quality of the plum tree fruit DENTE 707. (Conducción de Frutales de Carozo bajo malla antigranizo. Contribución al estudio de la protección antigranizo sobre la calidad de frutos del ciruelo. DENTE 707). Collaborator.

Experimental station of "Rama Caida," San Rafael, province of Mendoza. National Institute of Agrarian Technology (INTA). Argentina. 1996.

Introduction and Evaluation of citric varieties and graft-holders for the provinces of Salta and Jujuy. (Introducción y evaluación de variedades y portainjertos cítricos para las provincias de Salta y Jujuy). Collaborator. Experimental Station of Tropical Crops, Yuto, Jujuy. National Institute of Agrarian Technology (INTA). Argentina. 1995.

Integral Management of Tree Nursery. (Manejo Integral de Vivero) El Saladillo City Council Tree Nursery, province of Buenos Aires. Granting Institution: National University of La Plata and El Saladillo City Council. Argentina. 1991.

CONSULTANCY WORK HISTORY

Sumich Olive Plant. Technical and operational training to processing plant personnel during the processing season. Gin Gin, Western Australia, Australia. May 2005.

Thunderbolt Olives. Technical and operational training to processing plant personnel during the processing season. Moree, New South Wales, Australia. April 2006.

Tatiara Olive Plant. Olive processing and oil quality. Technical and hands-on training to processing plant personnel during the processing season. Keith, South Australia. Australia May 2007.

Eliza Grove. Processing plant design and standard operational procedures. Sutton Forest, New South Wales. Australia. 2007.

Tatiara Olive Plant. Olive processing and oil quality. Technical and hands-on training to processing plant personnel during the processing season. Keith, South Australia. Australia. June 2008.

Australian Green and Gold Olive Processors LTD. Olive processing and oil quality. Technical and hands-on training to processing plant personnel during the processing season. Milton, Queensland, Australia. 2009.

Zeytey Drom Yehuda LTD. Technical and operational training to processing plant personnel during the processing season. Gedera, Israel. November 2009.

California Olive Ranch. Olive processing and oil quality. Technical and hands-on training to processing plant personnel during the processing season. Evaluation of different processing equipment options available. Artois, California, USA. November 2011.

IQM Timbo S.A. Technical and hands-on training to processing plant personnel during the processing season. La Rioja, Argentina. March 2012.

Valle Grande S.A. Technical consultancy. Olive processing matters, oil storage and oil quality. Coquimbo, Chile. April 2012.

Bogaris Agriculture Chile S.A. Technical consultancy. Olive processing matters and plant design. Lolol, Chile. April 2012.

Zeytey Drom Yehuda LTD. Technical and operational training to processing plant personnel during the processing season. Gedera, Israel. November 2012.

Shan Regional Enterprises. Technical and operational training to processing plant personnel during the processing season. Beit Shan Valley, Israel. November 2012.

Goldridge Organic Farms. Technical and operational training to processing plant personnel during the processing season. Sebastopol, Sonoma County, USA. December 2012.

Desert Olive Nursery. Processing plant design technical advice. Brawley, California, USA. December 2012.

Matiatia Grove. Processing plant design technical advice. Waiheke Island, New Zealand. January 2013.

Aimurai S.A. Technical and operational training to processing plant personnel during the processing season. Chilecito, Argentina. March 2013.

Allpack S.A. Technical and operational training to processing plant personnel during the processing season. Chilecito, Argentina. March 2013.

Agricola Pobenia S.A. Technical and operational training to processing plant personnel during the processing season. Chilecito, Argentina. March 2013.

Taralinga Olive Grove. Processing plant design technical advice. Mornington Peninsula, Victoria, Australia. April 2013.

Etajima Olive Company. Technical and operational training to processing plant personnel during the processing season. Etajima, Hiroshima Prefecture, Japan. October 2013.

Boundary Bend Olives. Technical assistance in matters related to oil quality. Civitavecchia, Italy. March 2014.

Agroindustrial Siracusa S.A. Technical assistance related to the improvement of the industrial efficiency in the olive oil extraction process. Villa Pratt, Región VII, Chile. March/April 2014.

Agroreservas de Chile SPA. Processing plant design technical advice. Región Metropolitana, Chile. April 2014.

Etajima Olive Company. Technical management of the grove. Technical advise on pruning, fertilization and irrigation matters. Etajima, Hiroshima Prefecture, Japan. June 2014.

Villa Atuel S.A. Technical asistance on matters related to the industrial efficiency improvement and oil quality. San Rafael, Argentina. July 2014.

Solfrut S.A. Technical asistance on matters related to third parties processing contracts as well as in processing and quality protocols. San Juan, Argentina. August 2014.

Carlos Diniz (Private enterprise). Technical assistance on agronomical aspects. Sierras do Mantequeira, Minas Gerais, Brazil. September 2014.

ChileOliva. Technical assistance on matters related to the development of trading standards for olive oil. Santiago, Chile. October 2014.

La Panza Ranch. Technical assistance and training in olive oil production matters. San Luis Obispo (California), USA. October 2014.

Boundary Bend Olives (USA). Technical and operational assistance during the 2014 processing season in USA. Brooks (California), USA. October-November 2014.

Oli Q (Private enterprise). Technical assistance and training in olive oil production matters during season 2015. Sierras de Mantequeira, Minas Gerais, Brazil. February 2015.

Nogada S.A. Technical assistance and training in olive oil production matters during season 2015. Pomán, Catamarca, Argentina. March 2015.

Tambul S.A. Technical assistance and training in olive oil production matters during season 2015. Pomán, Catamarca, Argentina. April 2015.

Almazaras del Pacífico S.A. Technical assistance and training in olive oil production and quality matters during season 2015. Talca, Chile. April 2015.

Boundary Bend Olives (AUS). Technical and operational assistance in processing and quality matters during season 2015. Victoria, Australia. April-June 2015.

Agroreservas de Chile SPA. Technical assistance in matters related to processing plant design and processing protocols. Región Metropolitana, Chile. July 2015.

Olivum S.A. Technical assistance on processing plant designing. Processing protocols and waste management. San Juan, Argentina. July 2015.

Almazaras del Pacífico S.A. Processing season 2015 results evaluation. Santiago, Chile. July 2015.

Fazenda Maria da Fe. Technical assistance on farming subjects: Olive orchard renovation and pruning. Flowering and fruit set tests. Maria da Fe, Minas Gerais, Brasil. September 2015.

Bozzano Olive Ranch. Assistance in the capacitation of personnel in technical and operational matters. Processing efficiency improvement. Stockton, California, USA. October 2015.

Boundary Bend Olives (USA). Technical and operational assistance during the full 2015 processing season. Woodland, California, USA. October/November 2015.

McEvoy Ranch. Technical and operational assistance in matters related to olive processing. Advise in plant design modification. Sonoma County, California, USA. November 2015.

Villa Avocado S.A. Technical assistance in matters related to the improvement of the decanter working capacity. Trials on the use of processing aids for the processing of avocado oil. Michoacan, Guadalajara, México. November 2015.

Longnan Xiangyu Olive Company. Technical/operational assistance and capacitation of the processing personnel. Improvement of the oil quality and modification of the tank farm design. Processing aids trials to improve extraction efficiency. Longnan, China. November 2015.

Torres del Sol S.A. Technical assistance on design and processing control matters. San Juan, Argentina. December 2015.

Guillermo Rossotti (Emprendimiento privado). Evaluation of the olive project viability. Production possibilities based on market opportunities. Tres Arroyos, Buenos Aires. February 2016.

Olivos Olimpo. Technical assistance related to design matters and the improvement of the industrial efficiency. Ovalle, Chile. March 2016.

Fazenda Maria da Fe. Technical assistance on farming and processing matters. Commissioning of the processing line. Maria da Fe, Minas Gerais, Brazil. March 2016.

Olivum S.A. Commissioning of the new processing plant. Technical assistance on olive oil quality and extraction efficiency. San Juan, Argentina. March 2016.

Almazaras del Pacífico S.A. Pre-season evaluation. Santiago, Chile. April 2016.

Agroindustrial Siracusa S.A. Technical assistance related to the evaluation of new second extraction lines. Villa Pratt, Región VII, Chile. April 2016.

Boundary Bend Olives (AUS). Technical and operational assistance in processing and quality matters during season 2016. Victoria, Australia. April-June 2016.

Carlos Diniz (Private enterprise). Technical assistance on processing equipment selection. FAST company, Capinzal, Santa Catarina, Brazil. July 2016.

Olivicola Valle Grande. Technical assistance on processing plant re-structuring and equipment set up evaluation. La Serena, Chile. July 2016.

Longnan Xiangyu Olive Company. Technical assistance on the production of high quality extra virgin olive oil. Processing aids trials to improve extraction efficiency. Longnan, China. September 2016.

Boundary Bend Olives (USA). Technical and operational assistance during the full 2016 processing season. Woodland, California, USA. October/November 2016.

Villa Avocado S.A. Technical assistance in matters related to the improvement of the avocado oil extraction efficiency. Michoacan, Guadalajara, México. December 2016.

Rolar de Cuyo S.A. Technical assistance in olive oil processing. San Juan, Argentina. March 2017.

Nogada S.A. Technical assistance and training in olive oil production matters during season 2017. Pomán, Catamarca, Argentina. March 2017.

Olivum S.A. Technical assistance on olive oil extraction efficiency. Processing aids trials. San Juan, Argentina. March 2017.

Almazaras del Pacífico S.A. Pre-season evaluation. Ovalle y Talca, Chile. April 2017.

Olivos Olimpo. Technical assistance related to the improvement of the industrial efficiency. Ovalle, Chile. April 2017.

Boundary Bend Olives (AUS). Technical and operational assistance in processing and quality matters during season 2017. Victoria, Australia. April-June 2017.

Longnan Xiangyu Olive Company. Technical assistance on the production of high quality extra virgin olive oil and integral management of the processing facility. Longnan, China. September 2017.

Boundary Bend Olives (USA). Technical and operational assistance during the full 2016 processing season. Woodland, California, USA. October/November 2017.

Villa Avocado S.A. Technical assistance in matters related to the improvement of the avocado oil extraction efficiency. Michoacan, Guadalajara, México. December 2017.

Longnan Xiangyu Olive Company. Technical assistance on the production of high quality extra virgin olive oil and integral management of the processing facility. Longnan, China. December 2017.

Sol Frut S.A. Technical assistance and evaluation of processing season 2017, as well as training of personnel. San Juan, Argentina. March 2018.

Ramfer S.A. Processing plant design planning. San Juan, Argentina. March 2018.

Olivum S.A. Technical assistance on olive oil extraction efficiency and personnel training. Processing aids trials. San Juan, Argentina. March 2018.

Rolar de Cuyo S.A. and Olivaterra S.A. Processing trials, personnel training and industrial efficiency. San Juan, Argentina. March 2018.

Agroindustrial Siracusa S.A. Technical assistance related to the evaluation of processing aids use and crusher rotating speed utilization. Villa Pratt, Región VII, Chile. April 2018.

Boundary Bend Olives (AUS). Technical and operational assistance in processing and quality matters during season 2018. Victoria, Australia. April-June 2018.

Peppergreen Olives. Processing plant design. Canyonleigh, NSW, Australia. May 2018.

TRAININGS AND TECHNICAL TOURS OVERSEAS

- **Italy & Spain. 1st May – 15th June 1998.** Visit to Olive oil Factories, Olive farms and Olive oil Research Institutes. Objectives: To research information regarding Olive tree growing and management and to consult specialist in the area of the olive oil production.

- **Spain. 27th October – 3rd December 2001.** Undertook the “*Superior Course of Specialization in Elaiotechnics and Table Olives*” in Jaen and Cordoba (Andalucia). Objectives: To specialize in the oil production area and oil quality.
- **Spain. 22nd November – 23rd December 2003.** Visit to Amenduni Iberica, and to Cooperatives and private olive oil companies in Andalucia. Objectives: To be trained in management of Amenduni’s olive oil processing machinery, and its maintenance. To obtain information regarding to Olive oil processing plant designing, in order to keep developing Boort Estate processing facility in Australia.
- **Argentina. 9th – 12th January 2004.** Visit to Olive oil processing plants in the main areas of Argentina (San Juan, La Rioja y Catamarca). Objectives: To obtain information regarding to Olive oil processing plant designing, in order to keep developing Boort Estate processing facility in Australia.
- **Italy & Spain. 21st September – 3rd October 2004.** Technical and commercial visit to Olive oil processing facilities. Objectives: To obtain information regarding olive oil tank farm set up and designing. To formalize the operation of purchase to Amenduni Bari (Italy) of new processing equipment for the Boort Estate processing plant.
- **Italy & Spain. 27th November – 15th December 2004.** Technical visit to Amenduni Bari and Amenduni Iberica, and processing facilities. Objectives: To obtain further training in the use and maintenance of olive oil extraction machinery. To obtain information in regards to different facility set-up options. To visit the most important research institutes in the olive oil area.
- **Spain. 28th November – 16th December 2005.** Technical and commercial visit to Spain. Touring of Andalucia where 22 sites including research institutes & processing facilities were visited. Objectives: Meeting equipment providers and research in innovation and new technologies.
- **Argentina. 17 - 18th December 2005.** Technical visit to Argentina. Technical review of olive harvesting machinery in Venado Tuerto (Santa Fe). Meeting with equipment providers.
- **Spain. 28th November – 14th December 2008.** Technical and commercial visit to Spain. Touring of Andalucia where 25 sites including research institutes & processing facilities were visited. Objectives: Meeting equipment providers and research in innovation and new technologies.
- **Argentina. 2-3rd January 2009.** Technical visit to groves in San Juan provence.
- **India. 10-13th April 2009.** Commercial visit to India. Meetings with food companies in both New Delhi and Mumbai. Key speaker before the Indian Olive Association: ***The Modern Australian Olive Industry.***
- **Israel. 2-14th November 2009.** Technical consultancy at Zeytey drom Yehuda Ltd. Olive oil processing equipment.
- **Chile. 1-6th April 2012.** Technical visit to olive groves and processing plants in Chile’s main olive growing areas.

- **Japan_24th October – 3rd November 2013.** Technical visit to olive groves in the Shodoshima area.

CONFERENCES, COURSES AND PRESENTATIONS AS A SPEAKER

- ***By-products management at Boort Estate & Boundary Bend Estate, Victoria, Australia.*** National Olive Conference. Canberra. Australia. 2007.
- ***EVOO processing course.*** Modern Olives. 2-day course. Victoria. Australia. 2007.
- ***Impact of the processing operations in the oil quality.*** National Olive Conference. Canberra. Australia. 2008
- ***EVOO processing course.*** Modern Olives and Australian Olive Association. 2-day course. Victoria. Australia. 2008.
- ***The Modern Australian Olive Industry.*** Indian Olive Association. New Delhi, India. 2009.
- ***EVOO processing course.*** Australian Olive Association. 2-day course. Victoria. Australia. 2009.
- ***Cobram Estate EVOO product range.*** Presentation for specialized food magazines at News Ltd, Sydney, Australia. October 2009.
- ***Evaluation of processing aids for olive oil extraction and quality improvement.*** National Olive Conference. Canberra, Australia. 2009.
- ***Gold Medal EVOO: Processing approach.*** National Olive Conference. Canberra. 2010.
- ***EVOO processing course.*** Australian Olive Association. 2-day course. Victoria. Australia. 2010.
- ***Procesamiento y calidad de aceite de oliva*** (Olive processing and oil quality). National Institute of Agriculture Technology (INTA). 3-day course. San Juan, Argentina. 2010.
- ***Master Millers course.*** University of California. Key speaker on a 3-day processing course. Davis, California. USA. 2010.
- ***EVOO processing course.*** Australian Olive Association. 2-day course. Victoria. Australia. 2011.
- ***Aspetti meccanico. Impiantistici nella produzione di olio di oliva in Australia*** (Mechanical approach in olive growing and oil making in Australia). Fiera del Levante. Bari, Italy. 2011.
- ***Procesamiento y calidad de aceite de oliva*** (Olive processing and oil quality). Consorcio Regional de Experimentacion Agricola (CREA). 3-day course. Catamarca, Argentina. 2011.
- ***Evaluation of second extraction of olive oil in Australia.*** National Olive Conference. Adelaide. Australia. 2012.
- ***Evaluation of processing aids for olive oil extraction and quality improvement.*** National Olive Conference. Adelaide. Australia. 2012.
- ***EVOO processing course.*** Australian Olive Association. 2-day course. Adelaide. Australia. 2012.

- **Calidad del aceite de oliva. Procesamiento y eficiencia** (EVOO quality and processing efficiency). Asociacion de Productores de Aceite de Oliva (ChileOliva). 2-day course. Rancagua, Chile. 2012.
- **Master Millers course**. University of California. Key speaker on a 3-day processing course. Davis, California. USA. 2012.
- **Evaluation of traditional and new processing aids for olive oil extraction**. VII International Symposium on Olive Growing. San Juan, Argentina. 2012.
- **EVOO processing course**. Australian Olive Association. 2-day course. Victoria. Australia. 2013.
- **Advanced Olive Oil processing course**. Olives New Zealand National Conference 2013. 1-day course. Auckland, New Zealand. 2013.
- **Processing tools for industrial efficiency improvement**. National Olive Conference. Tasmania. Australia. 2013.
- **Eficiencia productiva enfocada en la calidad de los aceites extra vírgenes** (Industrial efficiency and extra virgin olive oil quality). XI Olive Oil National Conference. Santiago, Chile. 2013.
- **Master Miller course**. Olive Oil Sommelier Association Japan. 2-day course. Shodoshima, Japan. 2013.
- **Seminario de producción sustentable del aceite de oliva. Calidad y Eficiencia**. (Seminar on Sustainable EVOO production. Quality and Efficiency). Asociación de Productores de Aceite de Oliva (ChileOliva). 2-day course. Rancagua, Chile. 2014.
- **Diplomado de producción olivícola**. University of Chile. 1-day lecture. Santiago, Chile. 2014.
- **Development of the Australian Standard (AS 5264-2011) for olive oil**. Chile Oliva. Lecture on the Australian experience regarding the making of the trading standards for olive oil. Santiago, Chile. October 2014.
- **Master Millers course**. University of California. Key speaker on a 4-day processing course. Davis, California. USA. 2014.
- **Master Miller course**. Olive Oil Sommelier Association Japan. 2 day-course. Tokyo/Saitama, Japan. 2014.
- **Seminar on processing aids**. Longnan Olive Research Institute (China). 1-day lecture. Longnan, China. 2014
- **Olive oil processing course**. ASOOLIVE (Sierras da Mantiqueira olive growers Asociation). Minas Gerais, Brazil. February 2015.
- **Grupo Técnico Industrial (GTI)**. Chile Oliva. Lecture related to technical aspects and calibration of infra red equipments. Villa Pratt, Region VII. Chile. 2015.
- **Diplomado de producción olivícola**. Universidad de Chile. 1-day lecture. Santiago, Chile. September 2015.
- **Australian Standard (AS 5264-2011) for olive oil. Experience and technical reasoning**. Agriculture Ministry of Chile. Lecture on the Australian experience regarding the making of the trading standards for olive oil. Santiago, Chile. September 2015.
- **Master Miller course**. Olive Oil Sommelier Association Japan. 2-day lecture. Shodoshima, Japan. November 2015.

- ***Cata de aceite de oliva.*** Atelier Restaurant. Olive oil tasting of national and international EVOO. Discussion about agronomical and technological factors affecting EVOO quality. City Bell, La Plata, Argentina. December 2015.
- ***Grupo Técnico Industrial (GTI).*** Chile Oliva. Lecture on the relationship between working capacity and extraction efficiency. Melipilla, Chile. March 2016.
- ***Olive Oil Processing Course.*** Olives New Zealand. 2-day lecture. Auckland, New Zealand. April 2016.
- ***Master Miller course.*** Olive Oil Sommelier Association Japan. 2-day lecture. Tokyo/Saitama, Japan. November 2016.
- ***Nuevas aplicaciones tecnológicas en el proceso de extracción de aceite.*** Seminar on “Waste management and new processing technologies” organized by ChileOliva. Santiago, Chile. April 2017.
- ***Cata de aceite de oliva.*** Universidad del Salvador. Buenos Aires, Argentina. August 2017.
- ***Industrial Efficiency and Yield.*** Argoliva seminar. San Juan, Argentina. September 2017.
- ***Processing aids evaluation for olive oil extraction improvement.*** Open technical workshop organised by Gransud S.A. San Juan, Argentina. September 2017.
- ***Oil production and quality processing course.*** 3-day lecture and field processing course on oil processing and quality matters. Camara Olivícola de San Juan. San Juan, Argentina. March 2018.
- ***Paste preparation technical workshop.*** 1-day lecture workshop on matters related to paste preparation, organised by ChileOliva association. Rancagua, Chile. April 2018.
- ***Oil production and quality course.*** 2-day lecture and field processing course, organised by Olives New Zealand. Auckland, New Zealand. April 2018.
- ***High quality and efficiency processing course.*** 2-day lecture and field processing course on all aspects related to high quality EVOO production. Organised by The Olive Centre (Australia). Drysdale, Australia. April 2018.
