

Dear producers and members,

Join us for the last SA Olive Field Day Event for 2024, where innovation meets agriculture!

Dive into the world of smart and precision farming, where technology and sustainability work together to transform traditional agricultural practices. Our event is designed for farmers, agribusiness leaders, researchers, and enthusiasts who are ready to explore cutting-edge advancements that improve productivity and resource management. From state-of-the-art machinery to data-driven crop solutions, discover how these tools lay the foundation for a more efficient, profitable, and environmentally friendly approach to farming.

Come experience firsthand demonstrations, expert talks, and networking opportunities that will equip you with practical knowledge and inspire the next step in your farming journey.

Be part of the future. Be part of the revolution. Welcome to smart, precision-driven agriculture.
